- Harmonious results
- Sustainability

Before

After

Revitalip
By Renaissance

Your lips are essential to communicate and sublimate your smile. So it is important to find a qualified and experienced doctor in the field of lip remodeling that you trust. This is because lip augmentation can pose real risks if the person performing the procedure is inexperienced: asymmetry, balls, vascular risks...

WARNING

RAJUVINATE PROTOCOL

RAJU  VINATE
By Renaissance

Do you suffer from wrinkles and want to look younger? You fear facelifts with superficial results? Discover the protocol

Before

After

RAJU  VINATE
By Renaissance

 **WARNING**

Patients considering facial rejuvenation should be judicious when selecting their doctor. Choosing an unqualified practitioner could result in unsatisfactory aesthetic results, surgical complications and significant expense.

PALPEACT PROTOCOL

Our eyelids are fundamental to the expression of our face. Dark circles under the eyes reflect a sign of aging and fatigue.

The most common disgraces are the following:

- * Upper eyelids heavy and drooping, with excess skin.
- * Sagging and withered lower eyelids with small horizontal wrinkles.
- * Hernias of fat, responsible for "bags under the eyes"

Whether you want to improve your appearance or you encounter functional problems at the level of the eyelids, it is possible today to rejuvenate this region without surgery thanks to the new medical protocol no invasive *Palpeact* developed by the Renaissance Center!

PRICE

- 6 000 Dh

BENEFIT

- Complete protocol received at the renaissance Center
- Synergistic Actions
- Minimal side effects
- Immediate and sustainable results

Before

After

Palpeact
By Renaissance

When palpebral rejuvenation is performed by inexperienced doctors or not certified, without ensuring that all relevant details are correct taken into account, eyelid rejuvenation procedures can produce bad results: eyelid retraction scars and permanent stains...

WARNING

REMANIAL PROTOCOL

Rejuvenating one's face alone is not enough! Watching the hands of a person is the best way to guess their age: wrinkled skin, prominent veins and dark spots on the back of the hands are advanced signs of aging.

The Renaissance Center has developed two new protocols rejuvenation of the hands composed of laser, PRP and fillings to effectively treat aging of hands without surgery. A new multi-modality approach!

PRICE

- 12000 dhs - 14000 dhs

BENEFIT

- Complete protocols received at the renaissance Center
- Sustainable results
- Safe treatments
- Monitor

Before

REMANAL

After

 **WARNING**

Hand rejuvenation is very effective, but is not cheap. If the procedure is performed by inexperienced doctors, it could present a potential risk of infection and scars on the hands.

POREGUL PROTOCOL

Poregul
By Renaissance

Does the appearance of enlarged pores on your face bother you ? You tried care products and makeup in vain? It is known that the treatments or marketed products focused on pore prevention and reduction dilated are not very effective.

No need to despair thanks to the **Poregul** protocol of the Renaissance Center composed of laser and PRP, specially designed to remedy this problem stubborn. Effective, non-invasive skin therapy that improves significantly the texture of the skin!

PRICE

- 6 000 Dh
